LANDING THE MARINES

Washington, Sept. 26. — In regard to the protest against the landing of American marines on the isthmus, made to Commander McLean of the Cincinnati by Governor Salazar of Panama, on the ground that the Colombian Government has ample force to protect the lives and property of foreigners, it is pointed out here that the Governor's argument takes in only one-half of the main treaty obligations with regard to the isthmus, assumed in the Convention of New Granada, signed in 1846 by the United States and Colombia.

The dominant factor which influenced the landing of the marines was the obligation which the United States took upon itself by the treaty of 1846, in these words: "The United States guarantees positively and efficaciously to New Granada, by the present stipulation, the perfect neutrality of the before mentioned isthmus, with the view that the free transit from the one to the other sea may not be interrupted or embarrassed in any future time while this treaty exists."

If Governor Salazar, in making the security of the lives and property of foreigners his ground of protest against the presence of the American marines did so on the assumption that the transit was safe against interruption, then the officials here are not inclined to the same view. They point out that there would have been an interruption of traffic on the isthmus on Wednesday, when 300 insurgents attempted to capture a Colombian officer aboard one of the trains, had it not been for the presence of American marines.

So far neither the State Department nor the Navy Department has been informed officially of the protest of the Panama Governor.

High prices are paid for butterflies, and some private collections, such as that of the Hon. W. Rothschild at Tring, Herts, are said to be worth £100,000 more or less. Some New Guinea butterflies have fetched £50 apiece. One of the Rothschilds is said to have paid £200 for a Papilio, now quite common. The demand for rare specimens has led to dishonesty. The insects are dyed or else wings from one species are fastened to the bodies of other species.

GENERAL ELI TORRANCE, COMMANDER IN CHIEF OF THE GRAND ARMY.

This year's encampment of the Grand Army of the Republic at Washington promises to be the most successful ever held. President Roosevelt will be present to review the parade, and a large attendance is expected. The programme opens Sunday, Oct. 5, when patriotic services will be held in various churches. It closes on the following Friday with the final business session, when a successor to General Torrance, commander in chief of the organization, will be chosen.

PORTUGUESE OUT WITH A STRONG PLATFORM

The Portuguese Political Club held a meeting in San Antonio hall last night and adopted the following platform which has been under consideration by the club for some time past:

The Portuguese Political Club, having above all declared adherence to the traditions and principles of the Republican party at large, and having only some differences as to the local policy, have adopted in part the platform of the Republican party of the Territory of Hawaii with some alterations and additions which the Portuguese Political Club consider for the best interests of the Territory at large.

1. We believe in the equality of all men under just laws of their own making, and we shall emphatically and uncompromisingly oppose any restriction or limitation of the suffrage which we now enjoy under the Organic Act.

2. We demand the passage of an act by the next Legislature establishing county governments in Hawaii, modeled after the most advanced and popular systems elsewhere and we further demand the passage of a general municipal government act by which such municipalities as so desire may establish cities, towns and villages.

3. We favor the enactment of such laws as will prohibit the employment of Asiatics, either directly or indirectly, in all public works of the Territory, or its political subdivisions; and we also favor that it be established by law that eight hours should constitute a day's labor on all public works of the Territory, or its political subdivisions.

4. We favor a liberal, just and equitable adjustment of the claims of the ex-Queen Liliuokalani.

5. We recognize the importance of diversified industries, and shall endeavor to secure from Congress the protection of the same from foreign competition.

6. We demand that appropriate laws be enacted facilitating the method of obtaining lands in small tracts by American and European colonists who may desire to become bona fide settlers.

7. We urgently request Congress to adopt such measures as will give the Territory of Hawaii the receipts of the customs of the Territory to be applied for internal improvements, which measure if adopted by Congress will relieve the present crisis. And to this end the next Legislature should do all in its power to carry out the same.

8. We urge Congress to appropriate such an amount as will pay the awards of the Fire Claims Commission and pledge ourselves to use every effort to obtain such appropriation.

9. We urge continued liberal appropriations for the maintenance of our unfortunate fellow citizens segregated

Irving M. Scott On Progress of America

New York, Sept. 26.—Irving M. Scott, the shipbuilder of San Francisco, addressed the Brooklyn Institute of Arts and Sciences last evening. His subject was "The Progress of the United States." Previous to his address an informal reception was tendered Scott in the parlors of the Y. M. C. A.

In the course of his remarks Scott devoted much time to recounting the many American inventions that have contributed so much to national prosperity.

He said: "Muttersings across the Atlantic urge certain restive nations to enforce a halt to America's lead in the various industries of the world. But how vain would be the effort! As well may they attempt to resist the flow of the ocean tide as to seek to stay the progress of the United States."

In speaking of the growth of the United States in territory, Scott said: "The United States, since its declaration of independence in 1776, has increased the area of its domain from 809,378 square miles to 3,758,452, in 1902—an area approximately equal to that of all Europe, and abounding in inexhaustible resources of material wealth. Every kind of useful metal and mineral, navigable lakes and rivers, and innumerable streams for irrigation and motive power, and, thank God, every square inch of this vast territory, extending from the Gulf of Mexico to the Great Lakes and Arctic ocean, and from the Atlantic to the Pacific, enjoying every climate from tropical to frigid, and yielding every product that the human hand can desire, is our own—not by freebootery, but by honorable acquisition."

At the close of Mr. Scott's address, Rev. Dr. Newell Dwight Hillis made a few remarks. A. Augustus Healy, President of the Board of Trustees of the Institute, presided.

YOU wouldn't hesitate to pay \$100 to a doctor who would guarantee to cure you of Liver or Kidney Trouble, Dyspepsia, Rheumatism, Nervous Debility, or remove dreaded Scrofulous humor from your system. Then why should you hesitate to pay \$1.00 for a bottle of Kickapoo Indian Sagwa when it is guaranteed to cure or money refunded? You run no risk of loss, your chances of gain are practically certain. Why hesitate longer? Go to your druggist today.

KICKAPOO SAGWA

NATURE'S OWN BLOOD PURIFIER
 "I was troubled with weak eyes which alarmed me so that I went to a physician. He said my trouble was due to Scrofula and gave me something which I took 3 months without much relief. I then began taking Kickapoo Indian Sagwa and in a few days felt a marked change for the better. Five bottles drove the Scrofula entirely out of my system, cleansed and purified my blood and restored my eyes to a normal condition."—Miss Josie Colgan, Treasurer Good Templars, 824 E-18th St., Kansas City, Mo.
